## ABOUT ME

Starting work as a Website Freelancer, I learned what role the client and business play at work and how different our observations can be in the same matter.

Thanks to his experience, he feels free to create various graphic designs, such as: UI design, infographics, DTP projects, drawn 2D animations.

I also place great emphasis on soft skills and continuous learning of industry trends through self-training and participation in webinars. I aspire to the role of uX/UI Designer, being aware of how wide this area is and how complex each case can be.

## SKILLS

UI Design | User research | Design Thinking UCD Design | Prototyping Working with business | Responsive Design Accessibility (WCAG) | Information Architecture | Wireframing | Agile: Scrum | Responsive Design
